

Vitamin D3 1000iu

Millions & Millions®

The Sunshine Vitamin

Vitamin D is an extremely important vitamin that helps to support a healthy immune system, while also maintaining the health and function of bones, teeth and muscles. The NHS recommends a daily supplement containing Vitamin D for all adults and children over the age of one, particularly during the winter months. Each tablet contains 1000iu of vitamin D3, which is the same form of vitamin D that our bodies produce naturally in response to sunlight.
