35W Downlight

This LUMiLiFE 35W LED downlight offers up to 2760 lumens of extra-bright light and a wide 90° beam angle, which makes it ideal for commercial and office applications. It features a PMMA diffuser that helps reduce starkness to produce an even and soft light.

You and your business will also enjoy huge savings of up to 70% when replacing standard lighting equivalents, with maintenance costs dramatically reduced thanks to a 40,000hr lifespan.

Friendly to the environment and completely mercury-free, you don't have to worry about hazardous chemicals. It also has an IP54 protection rating, so it's protected against dust and splashing water.

Driver lifetime & LED light decay rate

Temperature

- The testing is operated at 25°C
- The lifetime of capacitor, minimum of 5,000 hours if operated at 105°C, will be doubled whenever the temperature drops 10°C
- The highest withstand temperature of IC, MOS could be 120°C
- The highest withstand temperature of LED junction temperature is 150°C

The driver lifespan is based on capacitor working temperature.
