

Calcium 400mg + Vitamin D3 200iu

Millions & Millions®

Keeping you Strong & Healthy

Designed to support musculoskeletal health as well as overall general wellbeing, this high strength formula provides a convenient source of calcium and vitamin D3. These two essential nutrients are vital for men and women of all ages, helping to maintain strong bones, muscles and teeth. As we age, our calcium requirement increases so it is important to keep the most abundant mineral in the body topped up to a healthy level. To ensure the highest level of osteo support, this formula also contains Vitamin D3 (the same form of vitamin D that we get from sunlight) which helps the body to absorb and use calcium more effectively.
