Tests covered by this certificate were conducted in accordance with i2 F.A.S.T's SOPs.
Note: All assessments of compliance with specifications are based on actual analytical results with no contribution from uncertainty of measurement. Application of uncertainty of measurement would provide a range within which the true result lies. Estimates of measurement uncertainty are available for all accredited methods in the Documents section of LIMS.
This certificate should not be reproduced, except in full, without the express permission of i2 F.A.S.T
LOD = Limit of Determination. This is the lowest reportable limit of the test.
